

April 26, 2006

Ms. Salasky and Ms. Clausen,

Tessa and I tested the water at Long Lake once a month with the supplies provided to us. Besides the Powerpoint, I thought you might like to see the graphs I made. I had a very fun time, and I would be very willing to test long lake again through the summer or whatever's best for you, if you would like me to test Long Lake.

My mom and dad will get me out there once a month if you want me to continue testing it.

Thank you for letting me participate.
